EDUCATION

Abu Dhabi University   **Abu Dhabi, UAE**

Bachelor's Of Science - Computer Engineering   **Aug 2021 - Current**

TECHNICAL SKILLS

Languages: TypeScript **|** HTML5 | CSS3 **|** SCSS | JavaScript ES6+ | Java | MATLAB
Frameworks: React | Next.js | Material-UI | Ionic
Technology: NPM | Yarn | Git | React dev tools | Firebase v9 | GitHub | ESLint | Vercel
Other: Object Oriented Programming

WORK EXPERIENCE

Frontend Simplified   **Remote**

Frontend Developer   **Jun 2023 - Jul 2023**

• Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels

• Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination, and dynamic routing

• Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment

PROJECT EXPERIENCE

Abu Dhabi University   **Abu Dhabi, UAE**

Car Rescue Application   **Apr 2023 - Jun 2023**

• Developed a comprehensive car rescue application that is fully responsive and optimized for seamless usage across different devices and screen sizes. The app offers a range of powerful functionalities to assist in car rescue scenarios. It includes user authentication for secure access, utilizing Firebase for seamless integration. The app incorporates advanced navigation features, leveraging geolocation and the Google Maps API to provide accurate location tracking and real-time directions. Additionally, the app supports indoor localization capabilities, enabling users to efficiently locate vehicles within parking structures or large indoor areas

Personal Project   **Abu Dhabi, UAE**

Tesla Clone   **Jul 2023 - Jul 2023**

• Created a fully responsive Tesla clone that closely emulates the user interface and experience of the original website. The clone showcases the range of Tesla car models with detailed information, captivating visuals, and interactive elements. The app provides a seamless browsing experience through the Tesla car collection, allowing users to explore and learn about the different models. The clone is designed to be fully responsive, ensuring optimal viewing on various devices and screen sizes.

Frontend Simplified   **Remote**

NFT Marketplace Internship   **Jun 2023 - Jul 2023**

• During my virtual internship, I was involved transforming a static app into an interactive UI with animations, using Axios for dynamic data representation, and collaborating effectively through Git and GitHub. The skills I have implemented during the internship are: React.js, JavaScript, Redux.js, Next.js, HTML5, CSS.

CERTIFICATIONS

Java Foundations Oracle Certification   **June 2023**
